Integral Wealth Portal

This user guide will demonstrate how to add connected and manual accounts.

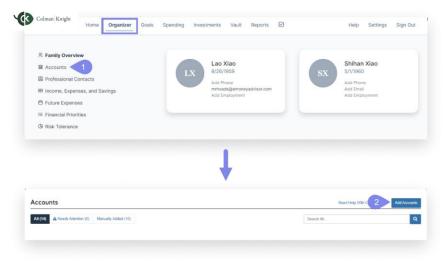

Adding Connected Accounts

Establishing connections to your personal banking institutions will allow your account information to be updated automatically. You can enter your account holdings manually if you do not have an online login to an institution.

1. From your Home page, click Add Account.

You can also click Organizer in the menu, click Accounts, and click Add Accounts.

If an Acknowledge Institution Notice screen appears, read the notice, and click Continue.
This notice varies by institution and will inform you of any critical information related to this institution's connection.

6. Enter your login credentials for this institution and click Connect.

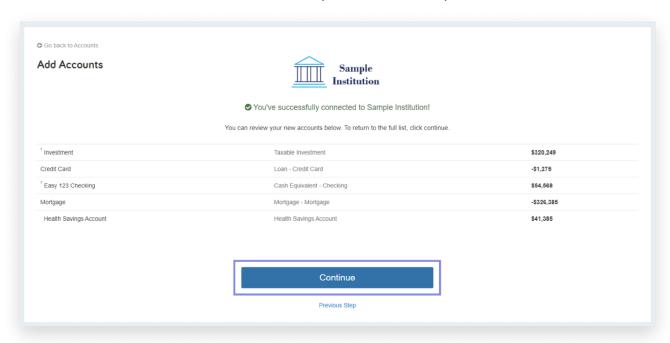

If there is an issue connecting to your accounts, you will receive a status message describing the problem, and you can click on the message to learn how to fix it.

7. Once your credentials have been verified, you can review the accounts brought over through the connection. Click Continue to return to an overview of all accounts you have entered in your Portal.

8. On the Accounts page, you can easily see when your accounts with an institution last updated or if any accounts are in an error state.

Connection Maintenance

Each connection you establish will require maintenance. For example, if you updated your password at the institution, you would need to update the credentials on the connection in your Portal.

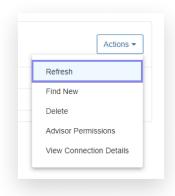

1. Errors that you can repair will appear with a Repair button that you can click to fix the issue.

2. With the Actions menu, you can make a handful of selections to manage your Connections:

3. **Refresh** the connection anytime to pull over updated account values manually.

4. Select **Find New** to pull any new accounts opened after establishing the Connection.

5. Select **Delete** to remove the connection and all associated accounts.

① Note

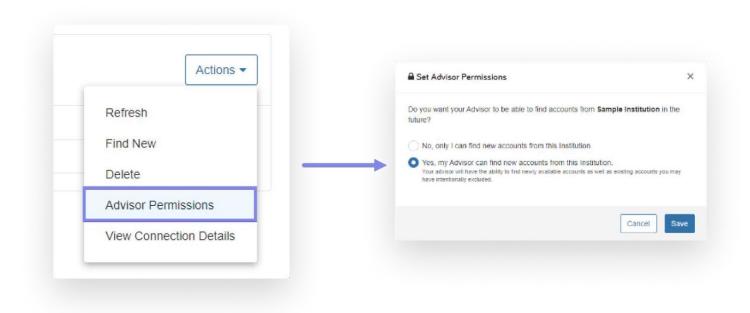

If you **Delete** the Connection, you will lose all accounts and transaction history. This is not recommended unless the connection and its accounts are no longer needed.
